	217	8507	B	BCIA 881 of 6165 (Nat Serv.Sim/ANG)	KCF L744 (Nat.Serv. BAL)	29-Oct	NS

The following lots (Lot 29 - 32) through no fault of the heifers, missed getting bred on the second heat due to the bull not getting it done. Once ultrasound was done at 60 days we were able to replace the bull to get them bred on late 3rd heat and 4th heat. Therefore they do not qualify for the VPAH + tag. They are siblings to heifers listed above and meet all of the VQA genetic protocol. DNA by Neogen on the heifers is solid, they will get the job done just a little later.

Andrew Darden, Corrowaugh Farm, Carrsville, VA
